
## How to construct a TAS ABSTRACT

<table>
<thead>
<tr>
<th>Title is limited to 200 Characters including spaces</th>
<th>Aspirin derivative is an effective anti-cancer agent that eliminates malignant tumors in elephants.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Author list – Presenter must be listed first and in bold.</td>
<td><strong>Isaac Newton</strong>, Marie Curie, and Albert Einstein (please use this format, with PRESENTER listed first &amp; in BOLD and PI listed last)</td>
</tr>
</tbody>
</table>

### Abstract is limited to 2000 characters including spaces. This is about 1/3 of a page or about 220 words.

- **One or two sentences providing a basic introduction to the field, comprehensible to a scientist in any discipline.**
- **Two to three sentences of more detailed background, comprehensible to scientists in related disciplines.**
- **One sentence clearly stating the general problem being addressed by this particular study.**
- **One sentence summarizing the main result (with the words “here we show” or their equivalent).**
- **Two or three sentences explaining what the main result reveals in direct comparison to what was thought to be the case previously, or how the main result adds to previous knowledge.**
- **One or two sentences to put the results into a more general context.**
- **Two or three sentences to provide a broader perspective, readily comprehensible to a scientist in any discipline, may be included in the first paragraph if the editor considers that the accessibility of the paper is significantly enhanced by their inclusion. Under these circumstances, the length of the paragraph can be up to 300 words. (This example is 190 words without the final section, and 250 words with it).**

### Do not use references, graphs, or pictures in an abstract

### Title is limited to 200 Characters including spaces.
The body of the abstract is limited to 2000 characters including spaces.
